

# Debate Cards

There is always more than one side to an issue. Debating develops key communication skills and helps students examine issues from different angles, creating more informed arguments and discussions. Use these motions to hold debates in your classroom and help students gain a better understanding of literacy.

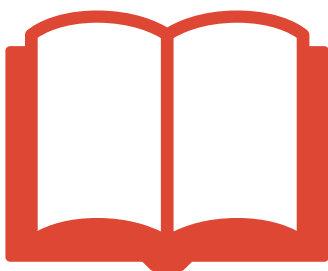

## Motion 1:

All job interviews should involve a compulsory literacy test.

## Motion 2:

Skills such as phonetic knowledge and comprehension are more important than having an enjoyment of reading.

## Motion 3:

Schools should prioritise literacy tests and exams over free choice reading.
